

Instructions: Each household receiving food assistance under The Emergency Food Assistance Program (TEFAP/USDA) must sign this log acknowledging receipt of USDA food products. **The log must be signed by the person submitting the application on behalf of the household.** The Commodity Issuance Log must be maintained on site and made available to SCDA staff, Federal officials, or GHFB staff members upon request.

## 2022-2023 TEFAP/USDA Commodity Issuance Log

|    | Name: | Number in Household: | Over 60: | Under<br>18: | Date: |
|----|-------|----------------------|----------|--------------|-------|
| 1  |       |                      |          |              |       |
| 2  |       |                      |          |              |       |
| 3  |       |                      |          |              |       |
| 4  |       |                      |          |              |       |
| 5  |       |                      |          |              |       |
| 6  |       |                      |          |              |       |
| 7  |       |                      |          |              |       |
| 8  |       |                      |          |              |       |
| 9  |       |                      |          |              |       |
| 10 |       |                      |          |              |       |
| 11 |       |                      |          |              |       |
| 12 |       |                      |          |              |       |
| 13 |       |                      |          |              |       |
| 14 |       |                      |          |              |       |
| 15 |       |                      |          |              |       |
| 16 |       |                      |          |              |       |
| 17 |       |                      |          |              |       |
| 18 |       |                      |          |              |       |
| 19 |       |                      |          |              |       |
| 20 | -     |                      |          |              |       |
